This is the first Office Action for the serial number 10/618,613, DISPLAY APPARATUS, filed on 7/15/03.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 11-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over US Patent # 6,923,413 to Dozier.

Dozier teaches a display apparatus including a display body having a display part (90) comprising a supporting bracket (30a-30b) attached to a wall and an adjusting bracket (50a-50b). Furthermore, Dozier teaches luminescent display, plasma (90).

Dozier teaches the adjusting bracket having screw hole (located where element 70 is mounted on the adjusting bracket but fails to teach the adjusting bracket having plurality of screw holes. It would have been obvious for one of ordinary skill in the art at the time the invention was made to have added additional holes on the adjusting bracket to adjust angle of the adjusting bracket to improve the viewing area for the user.

***Allowable Subject Matter***

Claims 1-10 are allowed.

Art Unit: 3632

The following is an examiner's statement of reasons for allowance: the prior art fails to teach a tilting angle adjusting menu is displayed based on the OSD signal according to the input part, so that the tilting angle of the display body is adjusted according to a selection made based on the tilting angle adjusting menu.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Response to Arguments***

Applicant's arguments with respect to claims 11-12 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alfred Joseph Wujciak III whose telephone number is (571) 272-6827. The examiner can normally be reached on 8am-4:30pm.
